Daimler Proposal to the UN Working Group on Human Rights and Transnational Corporations and Other Business Enterprises

The creation of this new Working Group presents an opportunity for the UN to coordinate multiple human rights-related initiatives and guidance for business within an overarching framework. Currently we see a need for an organized community to act as a clearinghouse for the various efforts, best practices, events, and opportunities relating to business and human rights.

Additionally, a focus on specific and practical guidance aimed at assisting the business community to take human rights-related endeavors to a higher level would be beneficial from our perspective.

As always, Daimler appreciates the opportunity to contribute feedback and ideas for emerging UN working groups and efforts. We look forward to working with the experts involved in the coming months.
